

Vascular Care Connecticut is committed to the prevention, diagnosis, and treatment of vascular disease. Our Board-certified physicians perform a full spectrum of minimally-invasive endovascular procedures at affiliated hospitals throughout the region. Our state-of-the-art services also includes wound care with the collaboration of wound specialists, non-operative management of vascular disease, as well as noninvasive testing and ultrasound in our vascular laboratory. In addition, we offer a fully-equipped interventional suite and vein center. The advanced vascular care at our center allows our team to perform minimally-invasive vascular procedures comfortably and safely in an outpatient setting.

OUR EXPERIENCED TEAM OF CLINICIANS CAN DIAGNOSE AND TREAT:

ANEURYSM DISEASE

- Abdominal aortic aneurysms
- Upper and lower extremity aneurysms
- Splenic artery aneurysms
- Thoracic aneurysm
- Traumatic aortic dissections/transections

HEMODIALYSIS AND ACCESS WORK

- AVF creation (fistulas and grafts), surgical and endovascular
- Fistula-gram for AVF and AVG maintenance

CENTRAL VENOUS ACCESS

- Portacath
- Permacath

CAROTID ARTERY DISEASE

- Symptomatic carotid stenosis
 - + Recent stroke
 - + TIA with carotid stenosis
 - + Vertebral-basilar disease
- High grade asymptomatic carotid stenosis

PERIPHERAL ARTERIAL DISEASE

- Diabetic foot ulcers
- Rest Pain
- Claudication
- Gangrene

TEMPORAL ARTERY BIOPSY

VENOUS DISEASE

- Varicose veins (symptomatic)
 - + Spider veins (cosmetic)
- Leg ulcers
- Deep Venous Thrombosis (DVT)
 - + Iliac veins
 - + Leg and calf veins
- Pelvic Congestion Syndrome
- Thoracic Outlet Syndrome

VASCULAR LAB/ULTRASOUND

- Non-invasive arterial testing
- Arterial duplex ultrasound
- Venous ultrasound studies for chronic venous insufficiency
- DVT duplex
- Abdominal aortic aneurysm screening and follow up
- Carotid duplex
 - + Renal and mesenteric artery duplex
- Ultrasound of dialysis access fistulas and grafts

WOUND THERAPY

- Leg ulcers/wounds due to vascular insufficiency
 - + Venous
 - + Neuropathic and diabetic ulcers
- Arterial leg ulcers
